In compliance with the requirements set forth by the National Assessment and Accreditation Council (NAAC), a comprehensive documentation process has been implemented. As part of this process, all events organized within our institution are meticulously documented through photography. Each photograph is carefully geo-tagged, providing precise location data for every captured moment. This meticulous approach ensures transparency and accuracy in our documentation, facilitating a thorough evaluation by NAAC authorities. Through this initiative, we not only capture the essence of our events but also provide verifiable evidence of their occurrence and location, reinforcing our commitment to quality and accountability in higher education.
